Dear Sir:

In response to the Examiner's office action dated November 6, 2007. Applicants had previously responded to the restriction requirement by electing the invention of Group 1 (claims 1-43), but neglected to identify an election of required species.

With regard to the species of IRM, Applicants elect the species described by claim 22. All of the claims 1-43 potentially read the IRM species of claim 22.

With regard to the species of particulate support material containing at least one metal, Applicants elect the species "gold". All of the claims 1-43 potentially read on the species of gold.

It is respectfully urged that the claims now pending before the Examiner are in condition for allowance.

Should the Examiner determine that a telephone interview would be beneficial in resolving any of the issues in this case, the Examiner is invited to telephone the undersigned attorney at the telephone number noted below.

Respectfully submitted,

January 7, 2008
